

SUSTAINABLE ACOUSTICAL COMFORT

SUSTAINABLE, ACOUSTICAL, AND COMFORTABLE UNDERLAYMENT NO.2026

DURA-SON™

UP TO IIC 74

QUICK AND EASY TO INSTALL

INSTALLATION VIDEO

STEPS

1

Make sure the subfloor is clean and dry. When installing over bare concrete floor, install a vapor barrier first.

2

When installing floating floors, laminate or engineered hardwood, DURA-SON is loose laid and not glued to the subfloor. Always install black side down.

3

When installing glued engineered hardwood and laminate floors, DURA-SON is glued down to the subfloor and under the top floor.* Always install black side down.

4

DURA-SON may be installed parallel or perpendicular to laminate flooring.

5

DURA-SON seams must be placed tightly together and preferably taped with duct tape.

6

Always follow the flooring manufacturer's specifications.

Dura-Son is not suitable for:

- Parquet wood tile floor
- Solid hardwood floor
- Ceramic, vinyl tile or vinyl sheet

Contact us directly if you plan an installation under ceramic, parquet wood tile floor, vinyl tile or vinyl sheet.

*Please contact Dura Undercushions for glue recommendations when installing DURA-SON.

WARRANTY

Dura underlayments are warranted to retain their essential firmness, resilience, and porosity through the useful life of the floor covering under which they are installed. This warranty applies to all types of indoor installations. In the event of a confirmed product failure due to a manufacturing defect, we will replace the defective section of the underlayment with a new equivalent product, free of charge.

This warranty applies only if the product is used in accordance with our instructions and for its intended purpose. It does not cover defects or failures due to improper use or misuse.
